Propose of the project

- *The purpose of our project is to make a GPS for all drugs and pharmacies in Egypt, to save time and effort, helping medical field to grow in Egypt, helping users * customers * to get comfort and to use our software in emergency.*

Business Model

- *The project is just about making a GPS for Medicines in Egypt which is working on mobile phones as a software and on Web Application as well for PC's users, it will be executed in about 2 years, main target of this project is to help people in emergency and in general .*
- *The sponsor is going to get the most benefits of this project if it succeeded .*
- *The costs of this project won't be much since we almost only need a API & Database and publishing .*

Smart Evaluation

- ***Specific :***
 - Does it address a real business problem ?
Not more than answering some people's needs .
- ***Is it Measurable ?***
 - Yes it's.
- ***Is it Attainable ?***
 - Actually yes it's ... and the completion date is realistic .
- ***Is it Relevant ?***
 - Yea it relate to a business object .
- ***The Time bound :***
 - This project need about 2 years to be done * for a beginners * .

Project Phases

	Initiation Phase
✓	<i>There is one clearly identified sponsor .</i>
✓	<i>The problem or reason for the project has been clearly documented .</i>
✓	<i>The project contact, what is IN and OUT of scope has been clearly documented .</i>
✓	<i>Project specifications have been clearly identified and documented (in terms of numbers, time, etc.) .</i>
✓	<i>The budget and the project deadline have been documented .</i>
✓	<i>The sponsor has signed the charter (comprising the above information) .</i>
	Planning Phase
✓	<i>The main project risks have been clearly documented .</i>
✓	<i>The constraints and assumptions have been clearly documented .</i>
✓	<i>The project stakeholders have been identified, analyzed and documented .</i>
✓	<i>The list of suppliers has been documented .</i>
✓	<i>The roles and responsibilities matrix (RAM) has been documented .</i>
✓	<i>The milestones have been identified and documented .</i>
	<i>The authority level of the project manager has been documented .</i>
✓	<i>The sponsor has signed the project plan (comprising the above information) .</i>

	<i>Execution Phase</i>
✓	Agree with the sponsor how often they wish to be informed and in what format .
✓	Communicate to the sponsor appropriately .
✓	Immediately let the sponsor know of any changes to the triple constraints: Time, Cost, Scope, Quality, Resources .
✓	Get Sponsor Signature on all changes that affect the Triple Constraints .

	<i>Closure Phase</i>
✓	Get sponsor signature at the end of every phase .
✓	Get sponsor signature at the end of the project .
✓	File all documents relevant to the project at the end of the project .
